

FUTURE OF DUTCH PAYMENTS SAVE THE DATE

24TH
EDITION

MARCH 7TH 2024 | BEURS VAN BERLAGE AMSTERDAM

THE DUTCH PAYMENTS SYSTEM IS UNIQUE

It has been internationally recognized for years as highly efficient, secure, reliable, and accessible. Several significant changes are on the horizon that will impact our payment system, including:

- The proposal of the European Commission for the digital euro.
- The rapid advancements of Artificial Intelligence and Quantum Computing.
- Increasingly sophisticated cybercrime and the demand for resilience due to new legislation such as NIS2.

Conversate with peers about these various developments. Come to the Future of Dutch Payments on March 7th at the Beurs van Berlage.

THE GATHERING PLACE FOR PAYMENT PROFESSIONALS IN THE NETHERLANDS!

DURING THIS EVENT, YOU WILL MEET:

Directors, heads, and managers of payment systems working in:

- Banks and insurance companies
- Payment institutions
- Payment service providers (PSPs)
- Credit card companies
- IT and IT Security
- Government institutions
- Fintech companies
- Advocacy groups
- Legal and financial service providers
